

**BRINGING THE  
RECYCLING INDUSTRY  
TOGETHER IN GEORGIA.**

**GEORGIA  
RECYCLERS  
ASSOCIATION**

ADVOCACY. NETWORKING. EDUCATION.

[garecyclers.org](http://garecyclers.org)

**The Georgia Recyclers Association (GRA) is the leading organization for Georgia's recycling industry. We represent the interests of Georgia recyclers before the Georgia General Assembly, the Governor's office, state agencies, and others.**

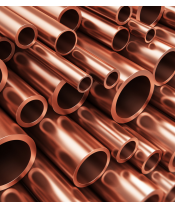

We help our member companies address the issues most critical to their business operations while providing them with opportunities for education and networking.

We represent the full spectrum of the recycling industry, including Georgia's metal, paper, plastic, glass, electronics, rubber, and textile recyclers. The industry is dedicated to transforming end-of-life products to create new materials that boost local, state, and national economies.

We know that legislation can have a negative impact on your business. As a member of the GRA, you can count on our advocacy team to fight to protect your interests.

**Join our association and encourage your fellow recyclers to do so as well.**
